FOR CLINICIAN

Application is being made to the ACS Respite Care Program to receive respite care services. Respite care is temporary relief care given by caregivers, trained and certified by ACS to help children and adults with disabilities, many of whom are developmentally disabled in order to provide a respite period for family members responsible for their regular care. Respite care can vary in length from a few hours to a week or more. The program provides two levels of respite care: supervision only and personal care.

We need to know, therefore, the level of care the applicant requires and any relevant information about medical conditions and special care instructions. Would you please provide the answers to the questions on this form and give explanations when indicated. This information is for confidential use.
